

This new hopper is based on the SH-400 which has been used in many different applications. The new design enables this hopper to fit into machines where the SH-400 could not, giving customers more flexibility when it comes to machine design and planning, whilst retaining the performance and reliability of the SH-400.

**FEATURES**

- Built in motor brake and auto-reverse mechanism helps to achieve excellent dispensing performance
- Easy bowl removal for cleaning/maintenance
- Standard discs easy to remove or exchange without the need for special tools or equipment

**OPTIONS**

- Slide mount version available
- Higher capacity bowl version available

**TECHNICAL SPECIFICATIONS**

- **Applicable Coin Size:**  
Applicable Coin Size:  
Diameter: 17.5-26.7mm  
Thickness: 1.3-3.1mm
- **Dispensing Speed:**  
Up to 600 coins per minute (approximately)
- **Coin Capacity:**  
Coin Size (example) Head Capacity  
25mm diameter 210 coins (approximately)
- **Coin Counting Method:**  
Proximity Sensor
- **Motor Control:**  
Dedicated Control Board using CCTalk
- **Motor Voltage:**  
24VDC + 10% - 0
- **Continuous Operation:**  
10 minutes max
- **Current Consumption:**  
230mA (operating) / 2.0A (stall)
- **Operating Temperature:**  
-10°C to +50°C
- **Weight:**  
1kg (approximately)
